July 2018

CALL for PAPERS

90th Conference of CICIND in Graz
From 4th to 6th October 2018

We invite speakers who would like to present a paper. Speakers can be CICIND members or persons involved in the

Civil Construction business

with themes which fit into the wide range of CICIND's activities. There is no special emphasis on a theme for this meeting: The whole

“Engineering and Construction of tall structures”

can be covered. Papers dealing with “Life Time Management” are especially welcome as well.

A total presentation shall not exceed 20 minutes in time which includes an allowance for a short discussion about the aspects and consequences of the paper. We expect Power Point presentations. Presentation date will be Friday 5th October 2018.

CICIND will provide a laptop and a beamer so that every speaker can download his paper from his stick by using the CICIND provided presentation tools.

Please let the Secretary know as soon as possible but please not later than

End of August 2018

about your intention to present a paper. The exact title can be provided at a later stage. If accepted by the Editorial Board of CICIND your paper will be published in the next CICIND Report following the meeting (provided you send the printable version of your paper in time, approx. two weeks ahead of the conference).

Kind regards

Hermann Hoffmeister
Secretary of CICIND
